## THE PURPOSE AND FOUNDATION OF THE CONFERENCE

Pakistan and Poland have a long historical relationship. Despite the geographical distance between two countries, the first travelers from Poland began to reach the lands that belonged to Pakistan today, in the Middle Ages. Later, in the 19<sup>th</sup> century two Polish researchers – Jan Gołaszewski and Bronisław Grąbczewski – prepared the first topographic descriptions of Hunza and Karakoram. The diplomatic relations between both countries were formally established in 1962, with Pakistan being one of the first Muslim state to establish relations with Poland. Historically, people of the two countries have ties going even back to 1940s, when during the Second World War, the city of Karachi hosted about 30,000 Polish refugees, who were evacuated from former USSR by the general Anders Army. Polish pilots, aviation engineers, technicians stayed in Pakistan after the World War II and were awarded honorary citizenship in 1956.
